MK-ULTRA: CIA Mind Control, Sleeper Cells and Child Kidnappings

by Freedom of Information Act
Friday Sep 17th, 2010 3:35 PM

The CIA program MK-ULTRA was revealed by the Freedom of Information Act, yet many modern day activists naively believe that this no longer happens. Would counter that CIA MK-ULTRA methods of mind control have not ended, simply been renamed under a different (unknown) program and the psychological technologies have improved. Many recent spree snipers could be "Manchurian Candidates" under the CIA's modern version of MK-ULTRA.

It has been widely reported that the US military tortures American children as part of mind-control experiments.

1. Paul A. Bonacci said that, as a child, he was kidnapped, tortured and subjected to sex abuse and mind control.
In 1999, in a court in Omaha, he won $1,000,000 in damages. (Mind Control Victim Awarded $1 Million)
Bonacci in his testimony referred to the involvement of top members of the US military and top politicians in child abuse.
The Washington Times reported that Paul Bonacci had access to the White House living quarters.

The torture of American children, by the US military?

Johnny Gosch is reportedly one of those tortured by the US military.

Bonacci testified on videotape (5-14-1990) for Nebraska State Police investigator Gary Caradori:

"Bonacci said that while on a trip to Sacramento, he was forced at gun-point to commit homosexual acts on another boy before he watched other men do the same – after which the boy was shot in the head." (Child sex rings linked to top Americans? Part 2)

2. In 1921, in London, the Tavistock Institute of Human Relations was set up to study the 'breaking point' of humans. (Project Monarch: Nazi Mind Control by Ron Patton). In 1932, Kurt Lewin, a German-Jewish psychologist, became the director of the Tavistock Institute. He studied the use of terror to achieve mind control. In Germany, similar research was being carried out by the Germans.
There were many links between the fascists in Germany and the fascists in Britain. For example, the Order of the Golden Dawn, a masonic-style secret society which had Aleister Crowley as a member, included German Nazis and British aristocrats. (Project Monarch: Nazi Mind Control by Ron Patton)

Col. Michael Aquino is one of those frequently mentioned in cases relating to child abuse and mind-control. (Michael Aquino, child sex abuse and the United States.)

Mengele who reportedly worked for the CIA and helped to brainwash Oswald (aangirfan: Mengele, Oswald, the CIA)

3. Dr. Josef Mengele studied mind-control at Auschwitz. Children were tortured and sometimes died. (MENGELE, MOSSAD AND THE CIA).
One of Mengele's reluctant assistants was Berthold Epstein, who was Jewish.

4. During World War II, at Colgate University in the USA, Dr. George Estabrooks of Colgate University was working on mind-control. (George Estabrooks – Wikipedia, the free encyclopedia)

5. After World War II, the U.S. military brought a large number of the top German Nazi scientists to the United States. The code name for this operation was Project Paperclip. (aangirfan: MENGELE, MOSSAD AND THE CIA)

6. The CIA's Project Bluebird, approved by director Allen Dulles in 1950, had the aim investigating the possibility of controlling a person by using certain interrogation techniques.

In 1953, the CIA set up Project MKULTRA to study mind-control. (Project Monarch: Nazi Mind Control by Ron Patton)

Reportedly, the Nazis brought to America, after World war II, helped with this project.

The methods used to produce mind-control included 'electroshock'.

Operation Spellbinder was set up to create 'sleeper' assassins or 'Manchurian candidates'.

In the early 1960s, the US military began Project Monarch. (Project Monarch: Nazi Mind Control by Ron Patton)

With Monarch, torture is used to produce mind-control.

The people whose minds have been controlled are reportedly used by the military as sex slaves. They can be used to blackmail politicians. They can be used to infiltrate organisations. They can be used to carry out assassinations or suicide bombings.

Reportedly, when the military are looking for people whose minds they can control, they look for people connected to orphanages, foster care homes, families linked to military intelligence, families with adopted children, families interested in Satanism andfamilies involved in child abuse.

Reportedly, many of the mind-control victims come from families linked to certain forms of Catholicism, Mormonism, or charismatic Christianity.

Reportedly, victims are often found to have scars or marks suggesting multiple electrical prods and mutilation by knives, branding irons, or needles. (Project Monarch: Nazi Mind Control by Ron Patton)

7. Names linked to US mind-control experiments include Dr Ewen Cameron, Lt Col Michael Aquino, a Jewish doctor named Dr. Greenbaum and Dr. Josef Mengele. (Project Monarch: Nazi Mind Control by Ron Patton)

Survivors of abuse under the Nazis remember Mengele torturing and killing a small child in front of a child he was programming.

Dr. D. Ewen Cameron was the former head of the Canadian, American and World Psychiatric Associations.

He carried out torture experiments on children at several locations in Montreal, including McGill University, St Mary's Hospital and Allan Memorial Institute

Cameron used the technique called 'psychic driving,' where children were kept in a drug induced coma for several weeks and given electroshocks, while electronic helmets were strapped to their heads and repetitive auditory messages were transmitted at variable speeds.

(Gordon Thomas, Journey into Madness: The True Story of Secret CIA Mind Control and Medical Abuse, Bantam Books, 1989)

Many of the victims were abused children from Roman Catholic orphanages.

Project MKULTRA was publicly exposed in 1970, through lawsuits filed by Canadian survivors and their families. The CIA and Canadian government settled out of court.

(BBC documentary on Cameron Click here to watch.)

Lt. Col. Michael Aquino, Aquino was connected with the Presidio Army Base day care scandal, in which he was accused child molestation.

Dr. Sydney Gottleib and Lt. Col John Alexander are also said to be linked to MKULTRA.

8. The Monarch mind-control experiments reportedly took place at the following locations:

Cornell, Duke, Princeton, UCLA, University of Rochester, MIT, Georgetown University Hospital, Maimonides Medical Center, St. Elizabeth's Hospital (Washington D.C.), Bell Laboratories, Stanford Research Institute, Westinghouse Friendship Laboratories, General Electric, ARCO and Ranking Research Unlimited.

China Lake Naval Weapons Center, The Presidio, Ft. Dietrick, Ft. Campbell, Ft. Lewis, Ft. Hood, Redstone Arsenal, Offutt AFB, Patrick AFB, McClellan AFB, MacGill AFB, Kirkland AFB, Nellis AFB, Homestead AFB, Grissom AFB, Maxwell AFB and Tinker AFB

Langley Research Center, Los Alamos National Laboratories, Tavistock Institute and areas in or by Mt. Shasta, CA, Lampe, MO and Las Vegas, NV. (Project Monarch: Nazi Mind Control by Ron Patton)

9. One well known victim of CIA mind-control is Cathy O'Brien, who refers to abuse by her father, forced prostitution involving top people, and working as a drugs mule. (Trance-Formation.com – Cathy O'Brien's website /Google Videos of Cathy O'Brien)

10. Paul Bonacci has testified about sexually-abused boys from Boy's Town in Nebraska being taken to nearby Offutt Air Force Base, where he says they were subjected to mind-control programming.

Bonnaci remembers being flown, with other boys, from the Air Force base to California and Bohemian Grove. (Project Monarch: Nazi Mind Control by Ron Patton)

Some victims were apparently murdered.

It is supected that Lee Harvey Oswald, Sirhan-Sirhan, Charlie Manson, John Hinckley Jr., Mark Chapman, David Koresh, Tim McVeigh and John Salvi may have been mind-control victims. (Project Monarch: Nazi Mind Control by Ron Patton)

11. In 1992, Dr. Corydon Hammond, a Psychologist from the University of Utah, delivered a lecture entitled "Hypnosis in MPD: Ritual Abuse" at the Fourth Annual Eastern Regional Conference on Abuse and Multiple Personality, in Alexandria, Virginia. (Project Monarch: Nazi Mind Control by Ron Patton)

Hammond referred to the Nazi connection and military and CIA mind control research.

He is one of many people who have spoken out.

above info & taped testimony found here;

Professional skeptics claim that this could not happen in reality, that the human mind is "too complicated" for MK ULTRA to work as planned. However, it may be easier than imagined, and that doesn't include the many mistakes where the trained subject is disposed of.

Modern example of MK ULTRA?

"Maurice Clemmons has all the earmarks of a classic Black Manchurian Candidate who just happened to slip through all the cracks in law like so many other governmental agent provocateurs and assassins. According to research, most Black Manchurian Candidates are individuals with created dissociative identity disorders that fall within the following five criteria:

1. Dissociate identity disorder created deliberately. Candidate usual has had contact with OSS, CIA, BLUEBIRD, ARTICHOKE, MK-ULTRA controllers or institutions or Military intelligence controllers or institutions, and prisons. Candidate's contact may have been created through bloodlines, military recruitment, enlistment, imprisonment, or civilian employee of military institutions.

2. A new identity is implanted which includes multiple personalities. Candidate has sudden appearance of an unknown operative personality, or new behavior involving senseless and uncharacteristic violence.

3. Amnesia barriers are created. Candidate has had memory loss proximate, and during a specific operation.

4. Used in simulated or actual operations. Candidate carried out an operative or assassination, and killing(s) may have occurred during or close to national or state elections, or involved political, religious groups or figures.

5. Disposal after operation. Candidate is killed or has had judge, or severely compromised jury trial, or guilty pleaded, declared insane or found suitable for commitment to mental institution, confined to solitary confinement in state or federal prison with restricted visitation with little or no access to inmate populations.

The Black Manchurian Candidate Criteria was expanded from the groundbreaking work of Colin A. Ross, M.D. in the operational use of multiple personality disorders by U.S. military and intelligence agencies. [1] So far Maurice Clemmons has substantially met at least 4 of 5 criterions for a Black Manchurian Candidate."

bad choice for the global wire

Whoever promoted this to the global wire needs an eductaion.
This kind of crap-churning undermines the credibility of indymedia.
In fact, it would be very tolerant to allow it to remain on the breaking/other wire because it actually is a form of spam.

For a sober consideration of some of the facts that are stirred up with fantasy in this ridiculous post, please read:

The Search for the Manchurian Candidate (c)1979 by John Marks Published by Times Books ISBN 0-8129-0773-6.

It references original sources and make accurate use of them, quite unlike the article at hand, which should NOT have been promoted to the global wire.

Always glad to arouse the anger of the "professional skeptics" found hidden amongst the so-called leftists who read indymedia articles. So the article detailing past abuses of U.S. civilians by CIA programs such as MK-ULTRA is "crap-churning"? You are so concerned about this article undermining the credibility of indymedia that you advise editors to censor this as spam?

Sounds like Mr. Roknich is just another left gatekeeper more concerned about opening discussions, or just posting general background info often ignored by the mainstream left because it touches upon "conspiracy theory"? Why does this disclosure of MK-ULTRA information concern you so much, Mr. Roknich?

Nobody with any background understanding of CIA operations would dispute that there was indeed a program called MK-ULTRA, and despite a few name changes over the years, it would be probable that this program of psychological manipulation continues under an unknown name, as the Freedom of Information Act is always a few years behind the latest CIA developments.

Here is more detailed info on the Freedom of Information Act revealing CIA psychological operations against U.S. civilians.

If you so desire, "Mr. Roknich", feel free to petition the imc editors to have this post removed as spam, as it obviously upsets you. Regardless of how anyone else feels about it, my goal is to continue posting updates on CIA psychological operations by ANY name!! Censorship be damned!!

Does Mr. Roknich deny the Freedom of Information Act declassified CIA documents on MK-ULTRA exist? You want to try and shut me up physically, Mr. Roknich?

"The Secret Agenda of Mind Control

Please note: the letters and numbers after each paragraph denote the book and page number from which the mind control information was taken. BB—Bluebird MC—Mind Controllers NB—A Nation Betrayed.

A declassified CIA document dated 7 Jan 1953 [1] describes the creation of multiple personality in 19-year-old girls. "These subjects have clearly demonstrated that they can pass from a fully awake state to a deep H [hypnotic] controlled state ... by telephone, by receiving written matter, or by the use of code, signal, or words and that control of those hypnotized can be passed from one individual to another without great difficulty. It has also been shown by experimentation with these girls that they can act as unwilling couriers for information purposes." BB 32

Under the provisions of the National Security Act of 1947, the CIA was established. One of the main areas investigated by the CIA was mind control. The behavior control program was motivated by Soviet, Chinese, and North Korean use of mind control techniques. The CIA originated its first program in 1950 under the name BLUEBIRD. MKULTRA officially began in 1953. In 1973, tipped off about forthcoming investigations, CIA Director Richard Helms ordered the destruction of any MKULTRA records. [2] MC 3, 10, 17

The Senate Intelligence Committee did find some records during its investigation in 1976. Senator Frank Church, who led the congressional investigations of the CIA's unlawful actions, said that the agency was "a rogue elephant" operating above the law as it plotted assassinations, illegally spied on thousands of Americans, and even drugged citizens in its effort to develop new weapons for its covert arsenal. [3] In 1977, through a Freedom of Information Act request, 16,000 pages of mind control documents were found as part of the Agency's financial history. That is how this information has been pieced together. MC 5, 18, NB xvi, 38

The CIA Mind Control Projects

A CIA document dated 10 Feb 1954 [4] describes an experiment on the creation of unsuspecting assassins: "Miss [deleted] was then instructed (having expressed a fear of firearms) that she would use every method at her disposal to awaken Miss [deleted] (now in a deep hypnotic sleep) and failing this, she would pick up a pistol and fire it at Miss [deleted]. She was instructed that she should not hesitate to "kill." Miss [deleted] carried out these suggestions including firing the (unloaded) gun at [deleted]. After proper suggestions were made, both were awakened. Miss [deleted] expressed absolute denial that the foregoing sequence had happened." BB 36, 37

MKULTRA grew into a mammoth undertaking. The nature of the research included these specific problems:

Can we create by post-H (hypnotic) control an action contrary to an individual's basic moral principles?
Can we "alter" a person's personality? Can we guarantee total amnesia under any and all conditions?
Could we seize a subject and in the space of an hour by post-H control have him crash an airplane?
Can we devise a system for making unwilling subjects into willing agents and then transfer that control to untrained agency agents in the field by use of codes or identifying signs? NB 13, 14, 28 [5]

In a 1971 Science Digest article [6], Dr. G.H. Estabrooks states, "By the 1920's clinical hypnotists learned to split certain individuals into multiple personalities like Jeckyl-Hydes. During WWII, I worked this technique with a Marine lieutenant I'll call Jones. I split his personality into Jones A and Jones B. Jones A, once a 'normal' Marine, became entirely different. He talked communist doctrine and meant it. He was welcomed enthusiastically by communist cells, and was deliberately given a dishonorable discharge. Jones B was the deeper personality, knew all the thoughts of Jones A, and was 'imprinted' to say nothing during conscious phases. All I had to do was hypnotize him, get in touch with Jones B, and I had a pipeline straight into the Communist camp." BB 167-169 For more on CIA mind control projects, click here.

Dr. Jose Delgado, a neurosurgeon and Yale professor, [7][8][9] received funding for brain electrode research on children and adults. In the 1950s, he developed a miniature electrode placed within an individual's cranium capable of receiving and transmitting electronic signals. Delgado was able to control the movements of his subjects by pushing buttons on a remote transmitter. He demonstrated by wiring a fully-grown bull. With the device in place, Delgado stepped into the ring with the bull. The animal charged towards the experimenter – and then suddenly stopped, just before it reached him. The powerful beast had been stopped with the simple action of pushing a button on a small box held in Delgado's hand. [10] MC 147, BB 88

The Mind Control Doctors

In the second half of the 20th century, mind control projects resulted in extensive political abuse of psychiatry. Many thousands were subjected to unethical mind control experiments by leading psychiatrists and medical schools. Mind control experimentation was not only tolerated by medical professionals, but published in psychiatric and medical journals. Dr. William Sweet participated in both brain electrode implant experiments and the injection of uranium into medical patients at Harvard University. [11][12] Army doctors were involved in LSD testing at least until the late 1970's. Subjects of LSD experiments included children as young as five years old, and brain electrodes were implanted in children as young as 11 years of age. BB, pg. K, 1, 21

Linda MacDonald was a victim of Dr. Ewen Cameron's [13][14][15][16] destructive mind control experiments in 1963. Dr. Cameron was president of the American and World Psychiatric Associations. He used a "treatment" which involved intensive application of these brainwashing techniques; drug disinhibition, prolonged sleep, and prolonged psychological isolation. These were combined with ECT [Electro Convulsive Therapy]. [17][18][19] The amount of electricity introduced into Linda's brain exceeded by 76.5 times the maximum amount recommended. Dr. Cameron's technique resulted in permanent and complete amnesia. A class action suit against the CIA for Dr. Cameron's MKULTRA experiments was settled out of court for $750,000, divided among eight plaintiffs in 1988. BB 126, 181-187 For more on the mind control doctors, click here.

26 July 1963, Memorandum For: Director of Central Intelligence [20] From: CIA Inspector General

The concepts involved in manipulating behavior are found by many people both within and outside the Agency [CIA] to be distasteful and unethical. Nevertheless, there have been major accomplishments both in research and operational employment. Over the ten-year life of the program many additional avenues to the control of human behavior have been designated under the MKULTRA charter, including radiation, electro-shock, and harassment substances. Some activities raise questions of legality implicit in the original charter. A final phase of the testing places the rights and interests of US citizens in jeopardy.

Technical Services Division initiated a program for covert testing of materials on unwitting US citizens in 1955. TSD has pursued a philosophy of minimum documentation in keeping with the high sensitivity of the projects. Some files contained little or no data at all. There are just two individuals in TSD who have full knowledge of the MKULTRA program. NB 108-113

One more question for Mr. Roknich;

The above evidence from the Freedom of Information Act proves that the CIA was using psychological operations in secret on U.S. civilians with the goals of creating sleeper assassins or other easily controlled individuals. Please explain and elaborate your position that this would be considered "spam", ie., useless information.

Or maybe Mr. Roknich wants the readers to believe that the CIA is now behaving themselves and wouldn't dare experiment on U.S. civilians anymore??

Not everyone (thankfully) shows their professionally skeptic views as blatantly as Mr. Roknich. ("This info on CIA MK-ULTRA must be censored or it will effect indymedia's credibility?) As if buying into the propaganda from U.S. government agents hook, line and sinker by denying what CIA opertives are capable of today would be considered skeptical views?

Some possible modern continuations of CIA psychological operations (MK-ULTRA by any other name is still the same!!);

"THE BETRAYAL OF JOHN ALLEN MUHAMMAD

By the time of this posting, Muhammad has reached the final criterion of a Manchurian Candidate: an ultimate disposal after operation.

John Allen Williams was betrayed by U.S. Military Intelligence and transformed into an Army/CIA guinea pig and patsy involved in a classified MK ULTRA/NSC related mind control/assassination project that few if any are pursuing the truth of.

Just as in the case of James Earl Ray and Charles Manson, follow the money trail. How did a man without any visible means of support travel across the country; to the Caribbean, buy cars, guns, ammunition, computers, state of the art global positioning systems; and fully fund and support his companion Malvo in a covert cross country operation for the government to recover stolen plastic explosives without covert government funding, support, and protection.

Timothy McVeigh, the alleged Oklahoma City Bomber, may have also unknowingly been an Army/CIA guinea pig involved in a classified telemetric/mind-control project — a "Manchurian Candidate."

McVeigh also prematurely reached the final criterion of a Manchurian Candidate: the ultimate disposal after operation in 2001. Yet, there is some deal of liberal and progressive community research in pursuit of the truth in his case , but Muhammad and Malvo have not received like critical research, examination of the facts and circumstances of the DC Sniper operation. Is it because of their race? Is it the contrived "Big Black Brute" syndrome that seems to throw liberals and progressives into a "Primal Fear" of Black males?

The legal system has betrayed Muhammad. His recently retained attorneys contend that the Virginia court system that convicted him and sentenced him to death deliberately cut short the time for filing appeals and refused to hold a single hearing on a dozen issues. Muhammad's trial lawyers described him as a "very bright man" to the jury, and did not place his delusional mental or military intelligence induced dissociate mental state into trial or in the public eye.

There is still NO MOTIVE for Muhammad and Malvo to travel across country assaulting and killing people at random; other than as pasties in a modern version of a SS inspired false flag domestic terrorist OPERATION NORTHWOODS!"

MKULTRA Monarch goes public §

I am a Canadian Monarch R&D subject, at the hands of JTF. JTF runs Guantanamo Bay which incidentally has a mind research facility. I have had violent contact by them here in Toronto 2005， 2006, 2007, 2010, 2014.
The violence has suddenly increased in lethality with an attempt on my life.
In my press release there is a link to my book summary at the crowdsourcing site Indiegogo. Please contribute if you can. All three of my consulting contracts in the past three years have been interfered with by American agencies/military that really don't want my book completed.
Peace,

To be more precise - "IS the mistake".... and yes this program... that is mind control is not stopped. Relevance of this statement is as of 2006-07-04.

Here are some interesting facts that you may not know:

1. CIA has perfect 'truth serum' that can question anyone at anytime within couple hour period. This substance is cheap , therefore it can be used with ease anywhere. Questioning happens during the night and people do not remember anything when they wake up aside from being tired and having a headache (if they were interrogated long enough, that is).
2. This brainwashing is not solely confined to CIA, army intelligence, government, but also OTHER world governments like China, Russia, UK, France, Germany, Italy and etc. .. and even small Europe countries that may have population of 5mill ppl do and know about it. Also individual companies from Fortune 100 that may or may not relate to US military and DoD are there as well. Give regards to Lockheed Martin company.
3. PART of the project that is going on now is actually investigation of genius minds. With that they want to see what they do to do such things on superhuman level. They install chips and chemicals into the body and when they feel like a person is performing some cognitive task, release chemicals into the bloodstream that travels to brain and gives a burning feeling inside specific areas of brain. Naturally, this is done w/out ppl consent and generates strong pains. This is done along with some research facilities.
4. Another part of the project is 'forced thinking at night'. They take a human being and can try to force to think at night. Naturally, inducing migraines when a person wakes up. A person can not move after such things since blood pressure is off the roof and any move made by person is met with massive headaches. Right now they are working with heart implants right now to increase/decrease pumping blood accordingly.
5. Yes, they can control a person at night doing any kind of activities from slave sex to murdering and in the morning a person would not remember anything aside from feeling bodily effects.
6. And yes, they can wire you in a way such that u can 'receive' the images of other person directly to your brain, u can have telepathic communications with other machines/individuals, they can 'watch' though your eyes and they can see what you are thinking aside from the fact that they can manipulate your thinking and personalities (if they make splits).

Give regards to Lockheed Martin in Lufkin, Texas along with Woodland Heights hospital - Sleep Disorders Lab sector and you can add these 2 in the list above for known facilities to practice human unconsent experimentation.
